**Fire Prevention & Protection
Mitigation Rates**
*Adopted by City Council December 4, 2017
Effective January 1, 2018*

MITIGATION RATES
BASED ON PER HOUR

The mitigation rates below are average "billing levels" per hour, and are typical for the incident responses listed, however, when a claim is submitted, it will be itemized and based on the actual services provided.

These rates are based on actual costs using amortized schedules for apparatus (including useful life, equipment, repairs, and maintenance). Labor rates include an average fire department's actual burdened labor costs and not just a firefighter's wage. These include wages, retirement, benefits, workers comp, etc.

MOTOR VEHICLE INCIDENTS

<u>Level 1 - \$435.00</u>	Provide hazardous materials assessment and scene stabilization. This will be the most common "billing level". This occurs almost every time the fire department responds to an accident/incident. This level could include traffic control, basic hazardous material assessment, and minor debris removal.
<u>Level 2 - \$495.00</u>	Includes Level 1 services in part or in whole plus expanded hazardous material identification and control, limited victim extrication (hand tools), heavy debris removal, and light extinguishment of vehicle fire.
<u>Level 3 – CAR FIRE - \$605.00</u>	Includes Level 1 and 2 in part or in whole, plus vehicle fire, breathing apparatus, rescue tools, structure protection, and large hazardous material identification and control.
ADD-ON SERVICES	
<u>FIRST RESPONDER - \$350.00 PER INCIDENT</u>	Medical response with the use of current medical supplies carried by response apparatus. Does not apply when the ambulance arrives on scene prior to the responding apparatus.
<u>Foam- \$25.00 per gallon</u>	Foam shall be used on most car fires and shall be charged in five (5) gallon increments.
<u>Extrication- \$1,305.00</u>	Includes heavy rescue tools, ropes, airbags, cribbing etc. This charge will be added if the fire department has to free/remove anyone from the vehicle(s) using any equipment. We will not bill at this level if the patient is simply unconscious and fire department is able to open the door to access the patient. This level is to be billed only if equipment is deployed.
<u>Creating a Landing Zone - \$400.00</u>	Includes Air Care (multi-engine company response, mutual aid, helicopter, etc.). We will bill at this level any time a helicopter landing zone is created and/or is utilized to transport the patient(s). Itemized Response: You have the option to bill each incident as an independent event with custom mitigation rates, for each incident using, itemized rates deemed usual, customary and reasonable (UCR). These incidents will be billed, itemized per apparatus, per personnel, plus products and equipment used.
ADDITIONAL TIME ON-SCENE RATES	Engine billed at \$400 per hour. Truck billed at \$500 per hour. Tanker billed at \$300 per hour. Miscellaneous equipment billed at \$300.

HAZMAT

<u>Level 1 - \$700.00</u>	Basic Response: Claim will include engine response, first responder assignment, perimeter establishment, evacuations, set-up and command.
<u>Level 2 - \$2,500.00</u>	Intermediate Response: Claim will include engine response, first responder assignment, hazmat certified team and appropriate equipment, perimeter establishment, evacuations, set-up and command, Level A or B suit donning, breathing air and detection equipment. Set-up and removal of decon center.
<u>Level 3 – \$5,900.00</u>	Advanced Response: Claim will include engine response, first responder assignment, hazmat certified team and appropriate equipment, perimeter establishment, evacuations, first responder set-up and command, Level A or B suit donning, breathing air and detection equipment and robot deployment. Set-up and removal of decon center, detection equipment, recovery and identification of material. Disposal and environment clean up. Includes above in addition to any disposal rates of material and contaminated equipment and material used at scene. Includes 3 hours of on scene time - each additional hour @ \$300.00 per HAZMAT team.
ADDITIONAL TIME ON-SCENE RATES (for all levels of service)	Engine billed at \$400 per hour. Truck billed at \$500 per hour. Tanker billed at \$300 per hour. Miscellaneous equipment billed at \$300

WATER INCIDENTS

<u>Level 1</u> <i>Billed at \$400 plus \$50 per hour, per rescue person.</i>	Basic Response: Claim will include engine response, first responder assignment, perimeter establishment, evacuations, first responder set-up and command, scene safety and investigation (including possible patient contact, hazard control). This will be the most common "billing level". This occurs almost every time the fire department responds to a water incident
<u>Level 2</u> <i>Billed at \$800 plus \$50 per hour, per rescue person.</i>	Intermediate Response: Includes Level 1 services as well as clean up and material used (sorbents), minor hazardous clean up and disposal. We will bill at this level if the fire department has to clean up small amounts of gasoline or other fluids that are spilled as a result of the incident.
<u>Level 3</u> <i>Billed at \$2,000 plus \$50 per hour per rescue person, plus \$100 per hour per HAZMAT team member.</i>	Advanced Response: Includes Level 1 and Level 2 services as well as D.A.R.T. activation, donning breathing apparatus and detection equipment. Set up and removal of decon center, detection equipment, recovery and identification of material. Disposal and environment clean up. Includes above in addition to any disposal rates of material and contaminated equipment and material used at scene.
<u>Level 4</u>	Itemized Response: You have the option to bill each incident as an independent event with custom mitigation rates for each incident using itemized rates deemed usual, customary and reasonable (UCR). These incidents will be billed, itemized, per trained rescue person, plus rescue products used.
<u>CHIEF RESPONSE</u> <i>Billed at \$250 per hour.</i>	This includes the set-up of Command, and providing direction of the incident. This could include operations, safety, and administration of the incident.

MITIGATION RATE NOTES

The mitigation rates above are average "billing levels" per hour, and are typical for the incident responses listed, however, when a claim is submitted, it will be itemized and based on the actual services provided.

These average mitigation rates were determined by itemizing costs for a typical run (from the time a fire apparatus leaves the station until it returns to the station) and are based on the actual costs, using amortized schedules for apparatus (including useful life, equipment, repairs, and maintenance) and labor rates (an average department's "actual personnel expense" and not just a firefighter's basic wage). The actual personnel expense includes costs such as wages, retirement, benefits, workers comp, insurance, etc.
