Fire Prevention & Protection Mitigation Rates

*Adopted by City Council November 18, 2019 (Effective 1/1/20)
Amended by City Council August 17, 2020 (Effective 8/17/20)*

MITIGATION RATES

BASED ON PER HOUR

The mitigation rates below are average "billing levels" per hour, and are typical for the incident responses listed, however, when a claim is submitted, it will be itemized and based on the actual services provided.

These rates are based on actual costs using amortized schedules for apparatus (including useful life, equipment, repairs, and maintenance). Labor rates include an average fire department's actual burdened labor costs and not just a firefighter's wage. These include wages, retirement, benefits, workers comp, etc.

MOTOR VEHICLE INCIDENTS

<u>Level 1 - \$435.00</u>	Provide hazardous materials assessment and scene stabilization. This will be the most common "billing level". This occurs almost every time the fire department responds to an accident/incident. This level could include traffic control, basic hazardous material assessment, and minor debris removal.
<u>Level 2 - \$495.00</u>	Includes Level 1 services in part or in whole plus expanded hazardous material identification and control, limited victim extrication (hand tools), heavy debris removal, and light extinguishment of vehicle fire.
<u>Level 3 – CAR FIRE - \$605.00</u>	Includes Level 1 and 2 in part or in whole, plus vehicle fire, breathing apparatus, rescue tools, structure protection, and large hazardous material identification and control.
ADD-ON SERVICES	
<u>FIRST RESPONDER - \$350.00 PER INCIDENT</u>	Medical response with the use of current medical supplies carried by response apparatus. Does not apply when the ambulance arrives on scene prior to the responding apparatus.

ILLEGAL FIRES

<u>ILLEGAL FIRES</u> Assignment - \$400.00 per hour, per engine / \$500.00 per hour, per truck	When a fire is started by any person or persons that requires a fire department response during a time or season when fires are regulated or controlled by local or state rules, provisions or ordinances because of pollution or fire danger concerns, such person or persons will be liable for the fire department response at a cost not to exceed the actual expenses incurred by the fire department to respond and contain the fire. If the fire is started due to persons not following prescribed fire and life safety, building codes, and ordinances. Similarly, if a fire is started where permits are required for such a fire and the permit was not obtained and the fire department is required to respond to contain the fire the responsible party will be liable for the response at a cost not to exceed the actual expenses incurred by the fire department. The actual expenses will include direct labor, equipment costs and any other costs that can be reasonably allocated to the cost of the response.

MITIGATION RATE NOTES

The mitigation rates above are average "billing levels" *per hour*, and are typical for the incident responses listed, however, when a claim is submitted, it will be itemized and based on the actual services provided.

These average mitigation rates were determined by itemizing costs for a typical run (from the time a fire apparatus leaves the station until it returns to the station) and are based on the actual costs, using amortized schedules for apparatus (including useful life, equipment, repairs, and maintenance) and labor rates (an average department's "actual personnel expense" and not just a firefighter's basic wage). The actual personnel expense includes costs such as wages, retirement, benefits, workers comp, insurance, etc.
